## **Proceedings Available:**

### **The Workshop on Psychosexual and Reproductive Issues Affecting Patients With Cancer—1987**

The proceedings of the American Cancer Society's Workshop on Psychosexual and Reproductive Issues Affecting Patients with Cancer are now available. The Workshop, which was held in January 1987 in San Antonio, Texas, brought together individuals working in the field of sexuality/reproduction and those working in cancer. A first for the Society, it provided an unusual opportunity for interdisciplinary dialogue on both research and intervention.

The 148-page proceedings are intended for scientific and professional audiences, and are available through local Divisions of the American Cancer Society. Order by title and number (#4515).
